Senyor Tonet

is the new street game proposal by
Tombs Creatius.

It consists of 10 structures to play, made using wood disuse materials, such as old furniture, boxes, etc. Everything found at local dumps.

It is a fair of curiosities of the travels of Mr. Tonet, on each game hides a singular creature. These imaginary being are small robots inside a box, where they move, change their colour, make sounds, everything with the assistance of robotics.

Attain the objective of the game properly turns into the key to open each box, and being transport to the imaginary world of sound, light and movement of Mr. Tonet.
